

SANI MASUD

OBJECTIVE Motivated Computer Engineering student with expertise in computer maintenance, software development, and artificial intelligence. Seeking a challenging role where I can apply my technical skills to troubleshoot and optimize computer systems while exploring AI-driven solutions.

SKILLS & ABILITIES

- Computer Maintenance & Troubleshooting** – Diagnosing and resolving hardware/software issues efficiently.
- Operating Systems** – Installation, configuration, and management of Windows, Linux, and macOS
- Software & Hardware Installation** – Setting up and optimizing applications, drivers, and peripherals.
- Artificial Intelligence (Beginner Level)** – Understanding AI fundamentals and exploring AI applications.
- Programming & Development** – Basic knowledge of Python, C++, and JavaScript for AI and system automation.

EXPERIENCE **MAHIR COMPUTERS** Apr 2018 To Present
Intern

Optimized computer performance by upgrading hardware components, increasing processing speed by **25%**.

Trained over 20 users on best practices for computer maintenance and AI applications, boosting overall IT literacy in the organization.

Improved system efficiency by reducing troubleshooting time by **30%** through proactive maintenance and optimized configurations.

EDUCATION **AHMADU BELLO UNIVERSITY, ZARIA** OCT. 2019 TO PRESENT
B.Eng Computer Engineering

HAYATUL ISLAM SECONDARY SCHOOL, KADUNA
West African Secondary School Certificate (W.A.S.S.C.E) 2017

COMMUNICATION **Effectively trained and assisted** colleagues and clients in troubleshooting technical issues, improving IT literacy and efficiency.
Delivered impactful presentations on computer maintenance and AI fundamentals, receiving positive feedback for clarity and engagement.
